

The AVcafe, Inc.
is a OCLC WorldCat Cataloging Partner

Libraries can save time and resources by placing just one order to receive materials and cataloging. This one-step process can provide you with shelf-ready audiovisual materials.

To sign up with The AVcafe you need to go to <https://www.oclc.org/webapp/wcs/stores/servlet/OSCPortal?storeId=10051> and click the logon link at the left.

If your library has an existing Online Service Center (OSC) account they can log in by using that OSC specific account information. If the library does not have an account; click the “Create Account” button at the right and follow the steps. Once logged into the OSC application, you can order WorldCat records through us by selecting AVcafe as your materials vendor. Your WorldCat Cataloging Partners (WCP) account number will ALWAYS be your OCLC symbol when ordering WCP with AV Cafe. Once you have supplied your account number, you will then proceed through the on-line screens where you can specify editing options and which integrated library system is used by the library. Please refer to our OSC Instruction Sheet attached to this email.

Your record delivery fees will be dependent on the cataloging subscription level you maintain with OCLC. Libraries with current cataloging subscriptions will not pay additionally for records delivered via the WorldCat Cataloging Partners program. For libraries with CatExpress subscriptions, records delivered via the WorldCat Cataloging Partners program will be counted toward your current CatExpress subscription. Libraries not having either subscription level will be billed transactionally by OCLC. In rare cases, a cataloging record may not exist for a title. You will be notified when this happens and be given the opportunity to approve or decline record creation and fees associated with a new record.

All libraries will be billed a \$1.00 cataloging handling charge per title from AVcafe. This nominal fee covers the cost associated with matching titles to the correct OCLC record and transmitting orders for records to WorldCat.

We're pleased to offer libraries high quality unedited and edited records. Please contact us immediately if you have any questions regarding this program or experience any challenges signing up on-line at 877-228-2233.
